

Potential adopters visiting with inmates.

Plan to take your adopted saddle horse home the day of the adoption event. You will need a 3-horse slant load, 4-horse trailer or stock trailer to assure your horse has a positive experience when loading (horses will not be loaded into 2-horse trailers).

When your horse reaches his new home he will be in a new place and around new people. To help him adjust, he should be housed in a small pen (no larger than 400 square feet in a size). Because your new horse is “green broke,” he will need daily handling and riding so his training continues to progress and he has an opportunity to get used to his new family.

Sometimes horses have trouble adjusting to their new environment. They may be used to one type of saddle or bridle or being approached in a certain way. If your horse has difficulty adjusting, arrangements can be made for some additional training for your horse at the Warm Springs Correctional Center training program. Although no refunds, credits or exchanges will be approved, BLM and Silver State Industries want you to be as happy as possible with your new horse. We find most horses respond rapidly to some additional work. If you should continue to be uncomfortable with your horse, he may be returned to Warm Springs and we will work to find him a new home. Please call (775) 861-6469 if you have any questions.
